---

ISYDE, Italian SYmposium on Digital Education, is the yearly conference organized by the Italian e-Learning Society (Sle-L) and the Italian Society of Research on Media Education (Sirem) that are in line with previous conferences (EMEMITALIA and SIEL).

The Focus of this year's edition is: ***"Lifelong Digital Learning and Education: promoting flexibility, inclusion, critical thinking and international exchange"***.

ISYDE2024 aim to strengthen and broaden the focus on both digital and media education through innovative teaching and learning experiences.

In contemporary societies several specific needs, strictly related among them, are asking for urgent answers: inclusion should be improved to overcome any possible barrier against education; intercultural and international exchange should be encouraged; the social wellbeing and professional upskilling and reskilling should be granted all life long through education as well as by appropriate communication strategies; moreover the ability to evaluate, analyze and understand media messages in all forms, with a critical eye, should be fostered.

Accordingly, the education system has to engage itself in promoting, testing and diffusing effective strategies and technologies with the aim of transforming educational paths in welcoming ecosystems able to support a lifelong full, safe and flexible development of the individual aspirations, embracing diversity as an opportunity for the growth of society.

The conference will address this challenge with the aim of promoting the emergence of national and international good practices in teaching-learning innovation and media education.

## ABSTRACT SUBMISSION

---

The invitation to participate is addressed to scholars, researchers, teachers, trainers, technologists and all professionals engaged in the construction, testing or evaluation of tools, practices or methodologies relatively related to any of the above themes.

**Contributions MUST be in English** and should be submitted in the form of an abstract with references (**max 2 pages, excluding references**). The conference is open to international contributions.

All submissions must be made electronically starting **from 20 February 2024 to 07 April 2024** through the online submission system ConfTool:

<https://conftool.org/isyde2024>

Please remember to select the topics, include up to 5 keywords and write a short summary (up to 250 words) during the submission process on the ConfTool platform.

The authors of accepted abstracts will be asked to present their work at the Conference. **Presentations could be given in English.**

The accepted abstracts will be available in a digital Book of Abstracts of the Conference.

Each accepted abstract must have **at least one registered author by 10 May 2024.**

A **final version of the extended abstract must be submitted by 20 May 2024**, and will be published in the conference Book of Extended Abstracts.

---

The Steering Committee will set the collocation of contributions in the event program and may, if necessary, also place them in areas or topics different from those proposed by the authors.

For more details on how to prepare the abstract see the Author Guidelines on the Conference website, as well as to submit it.

## **FULL PAPER SUBMISSION**

---

The authors of the accepted contributions will be invited to submit an extended version of their work in the form of a camera-ready final full paper (from 6 to 14 pages comprising references).

Full papers will undergo a second round of reviews. Accepted full papers, whose authors will have attended the conference (at least one author), will be included in the conference Proceedings, published by an international publisher.

For more details on how to prepare the full paper check the author guidelines on the conference website.

**For publication in the conference proceedings, an Article Processing Charge (APC) of 80 € will be requested for each paper.**

The Article Processing Charge has to be issued before the publication of the proceedings.

---

## PRESENTATION MODE OF CONTRIBUTIONS

---

Accepted contributions are expected to be presented either orally or, in case of an excessive number of submissions, in special poster-sessions.

Placement in the oral or poster-sessions has no influence on the publication of contributions either in the Book of Abstracts or in the proceedings volume.

Presentations have to be made in English.

One of the authors must appear in the session in which the presentation of the contribution has been scheduled and present his or her work to the audience.

During the presentation he/she may possibly be joined by the co-authors.

Inclusion in the program and publication in the proceedings is conditional on the presence during the conference proceedings, in Pavia of at least one author.

Only contributions where at least one of the authors is attending the conference will be included in the program and the corresponding manuscript will be published in the proceedings.

The duration of the oral presentations will be 15 minutes, inclusive of questions and answers

## COMMITTEES

---

The **Steering Committee**, comprising Sle-L and Sirem board members and faculty and researchers who play an important role in the related academic community, is responsible for the planning of the conference, defines the topics of interest and the criteria for accepting submissions.

You can find the committee list at this url: <https://www.isyde.org/committees/>

The **Scientific Advisory Board** is composed of distinguished faculty and researchers active in both research and governance activities related to digital education in a very broad sense. The Scientific Advisory Board supports the Steering Committee in the process of selecting contributions and designing the scientific program of the conference.

You can find the committee list at this url: <https://www.isyde.org/committees/>
